

Greetings,

Imagine raising all the funds you need for that amazing school trip, the new team uniforms or graduation or for your chosen charity, with a simple click of your mouse! Thank you for taking a few minutes to explore how raising money for your cause can not only be profitable, but incredibly simple and supportive of the values you hold dear.

Products that you love, need and want at their **real** market price will make you a favourite amongst your supporters. Your community will embrace the name brand products and the fair pricing. eCause prides itself on the solid relationships built with companies who create quality products that support our health and our earth.

Your benefits include:

- Incredible profits for your cause
- Time, energy and resource savings
- Top quality goods
- Fair market pricing that are trendy and calorie-free
- Zero risk or costs to your organization
- 100% product and service guarantees
- Feeling great because your fundraiser meshes with your values of health and environment

Whether you use the unique on-line system or the more traditional catalogue format you are supported at every step. Customer service is just a phone call away at 514-998-3863 or toll free at 1-877-638-1678. We can also be reached at info@eCause.ca.

With your on-line campaign there are no funds to collect and no door to door sales. We design an on-line store or "eco-boutique" for you and your promotional and marketing materials. You also receive the ultimate in on-line shopping security. Your catalogue fundraiser is just as simple and also requires no minimum purchases.

Great profits for you, served with quality, integrity and service. We are also delighted to support our local economy with the large majority of our suppliers being proudly Canadian.

We look forward to supporting you and your organization in your upcoming fundraisers. Please call for more information on how to get started in as little as 72 hours!

Warm regards,

Joyce Shanks
