

# Joyce Shanks

Founder - eCause Canada

Fostering positive change in the health of our families and our planet is the purpose of this woman in action; Joyce Shanks and eCause Canada. eCause was created as a fusion of Joyce's work as a holistic health care practitioner, avid fundraiser, environmentalist, and a school and community volunteer. Joyce is devoted to helping schools, charities, organizations, and private enterprise make a difference in a sustainable way. While supporting the Canadian economy, eCause almost exclusively represents Canadian manufacturers that produce top quality and fairly traded earth friendly products.

Motherhood and years of living in the Canadian Rockies and Scandinavia, and Joyce's training as a holistic health care practitioner have all contributed to her compassionate understanding of the interdependence between our health and the environment. With the support of her wonderful husband and daughter, Joyce endeavors to make a difference while working towards a healthier future for us all.

*For our health, for our planet, for our children,  
for the future, eCause we care.*
